## **The Trendy Bride** July 10th, 2010

---

It's June and wedding season! If you are a bride-to-be, this article is meant to be a summary of all the latest trends and must-haves with plenty of tips thrown in to make your special day spectacular and fun!

### **The Beautiful Bride:**

There are plenty of fabulous make-up options available to make you glow on your wedding day. Handy to keep in your bridal pouch is L'Occitane's Peony Illuminating Powder and [Body Shop's Brilliance powder](#), both of which will add subtle sparkle to your special day (Edward Cullen doesn't have to be the only one with diamond dust). [Cargo's EyeLighter™](#) is a great highlighter and their entire blu-ray make-up collection is very special because it self-adjusts to the lightening, which is very handy to help you look even better in photographs. Similarly, [Body Shop's Body & Leg Shine](#) is a must-have for a glossy bronzed look. For lips, check out [Kiss My Face S.O.S Dazzling Duo - Opal](#) which are sheer organic shines and shimmers for that added finesse.

If you are going to choose one nail polish for your wedding day, consider OPI's Isn't it Romantic? This soft pink will highlight your femininity and make you feel all bridal. If you want a fresh manicure yet very modern look, pair it with "Catch Ya Later!" [Nic's Stick by Nicole](#) nail paint just on the tips. To better prep for your big day, start using OPI Dry & Brittle Nail Envy nail strengthener for about two weeks before your wedding.

For gorgeous hair at optimal health with no frizzies, try the ingenious [Moroccan oil](#). All the products in the range (original oil, Dry No-More Professional Scalp Treatment, Luminous Hairspray, Hydrating Styling Cream and Curl Control Cream) are top quality and transformative. A great anti-frizz serum is REcenter, part of the organic range Orgnx by [LaCoupe](#).

If you want to lose those last couple of inches in time for your big day, check out the "Ultimate Body Applicator™" ([www.theultimatebodyapp.com](http://www.theultimatebodyapp.com)), a naturally based product that helps detoxify, tighten, tone and firm your body without water loss. Featured in Emmy and Oscar gift bags, this Hollywood secret weapon can work miracles.
