You put fragrance in your hair. Why?

My friend is a club promoter, and she always smells great. I asked, "How do you do this? You're in smoky clubs all the time." She said, "I spray fragrance in my hair!" I learned it from her.

How did you pick the name "Outspoken"?

I wanted it to stand on its own. I always support female empowerment and inner strength.

Why did you take out your eyebrow ring?

I've always been into piercings—I have 15 total, all above the neck. But, you know, I just wanted to change my look.

Ever had a bad beauty moment?

I had a spiral perm in high school and I scrunched my hair. I teased my bangs up to six inches high!
